## Professional Summary

---

Accomplished Senior Software Engineer with over 6 years of experience in designing and implementing scalable software solutions. Expertise in full-stack development with a strong focus on React.js, Node.js, and .NET Core. Proven success in enhancing data processing efficiency, improving client supply chain visibility, and leading software migrations. Skilled at mentoring junior developers, collaborating with cross-functional teams, and implementing technologies to drive business growth.

## WORK EXPERIENCE

---

**Various Clients** – Greater Minneapolis-St. Paul, MN

*Freelance Software Engineer (remote)*

Sep 2023 – Present

- Developed a custom web application using React.js and Node.js, streamlining clients' business processes and increasing operational efficiency.
- Engaged with clients to gather requirements, create intuitive user interfaces, and deliver projects on time, resulting in enhanced client satisfaction and repeat business.

**C.H Robinson** – Greater Minneapolis-St. Paul, MN

*Senior Software Engineer – Tech Lead (remote)*

June 2022 – Mar 2023

- Provided technical guidance, architectural design on new features, mentored junior developers, and conducted code reviews, resulting in a 30% increase in sprint completion rates.
- Established product roadmaps and assessed new tech viability with Business Analysts and Project Managers.
- Led technical phone screens and onsite interviews for various positions, including SWE, BA, QA, and PM.
- Developed Node.js and .NET Core APIs, as well as Kafka-based data integration solutions.
- Built custom UI features using React.js, directly improving client supply chain visibility.

*Software Engineer II (remote)*

Aug 2019 – June 2022

*Software Engineer I (onsite)*

Oct 2017 – Aug 2019

- Collaborated with 4 developers to refactor SaaS product from AngularJS to React.js and migrate to Azure. Gathered requirements, contributed to UI/UX design, and conducted Unit and E2E testing.
- Served as the Subject Matter Expert (SME) for customer integration and onboarding, leading the design and implementation of new features and custom business rules, onboarding 5+ Fortune 500 clients per quarter.
- Developed custom microservices to integrate multiple data sources from Enterprise Service Bus, RabbitMQ, and Kafka, streamlining data processing and accessibility.
- Implemented in-app chat using Socket.io and a user notification system (in-app, email, SMS via Twilio).

## CERTIFICATIONS

---

Azure Fundamentals – Microsoft

Issued Jul 2021

Software Engineering – Prime Digital Academy

May 2017 – Sep 2017

## EDUCATION

---

BA, Economics – University Of Minnesota – Twin Cities

Sep 2008 – Sep 2013

## SKILLS

---

**Programming Languages & Frameworks:** JavaScript, Python, C#, SQL, React.js, Node.js, Express.js, .NET Core

**Tools and Platforms:** Docker, Kubernetes, Jenkins, Azure, AWS (SES, EC2, S3), ServiceStack, Grafana

**Databases and Data Technologies:** MongoDB, Postgres, Microsoft SQL Server, Elasticsearch, Kafka, RabbitMQ
